1091322 | Concrete drill bits L200 mm - Diamond cut carbide cutting insert - Cylindrical shank TECHNIC (Blister)

High-performance drill bit, fast and strong, for the deep or through-drilling of vibrated concrete and stone, thanks to its ground carbide cutting insert with a diamond burr.

- **Especially for high-strength concretes and stone**
- **Deep and through-drilling**
- **Rapid drilling**
- **Superior long life**

- High-strength steel
- Carbide cutting insert
- Cylindrical attachment

Machine

Application

Concrete

Stone

Features

Properties and benefits

- High strength steel body: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ➡ Enables optimal power and torque transmission to the head of the tool.
- Ground carbide cutting insert: carbide cutting produced by means of a special griding process performed on its two cutting edges, for excellent sharpness ➡ Enables the clean and precise cutting of materials. Simple centring of the tool.
- Cylindrical shank: cylindrical attachment for all types of machine equipped with a 3-jaw chuck. ➡ Universal and safe attachment, suitable for all drills equipped with a 3-jaw chuck.
