

- Cylindrical shank
- Carbide head

1 cylindrical + 1 cylindrical rounded + 1 ogive + 1 ogive rounded + 1 conical rounded Plastic case

Machine

Application

Features

Properties and benefits

- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. ➡ Enables versatile use on portable electrical tools and CNC machine tools.
- + Tungsten carbide head: ground in a grade of carbide especially suited for high rotation speeds. ➡ Enables an excellent throughout rate and very high resistance to wear, suitable for very high rotation speeds in the majority of metals.
