

**1036681 | Carbide file milling cutter cylindrical  
-TivolyNorm -coarse cut -Form A**

High performance carbide file cutter milling for aluminium alloys due to its substrate and tooth geometry. Made in France.

- Especially for aluminium
- Especially for sticky steels
- Excellent surface finish
- Superior long life
- Optimal chip removal
  
- Cylindrical shank
- Carbide head

**Machine**

**Application**

N- Non-ferrous alloys

**Features**

**Properties and benefits**

- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. ➡ Enables versatile use on portable electrical tools and CNC machine tools.
- + Tungsten carbide head: ground in a grade of carbide especially suited for high rotation speeds. ➡ Enables an excellent throughout rate and very high resistance to wear, suitable for very high rotation speeds in the majority of metals.
