

1080272 | Drill bit for wood with 4 cutting edges - Hexagonal shank ESSENTIAL (Blister)

Fast and precise high-performance drill bit for wood, thanks to its four cutting edges, which is particularly suited for large-diameter drilling. 6.35 Quick-Change hexagonal shank

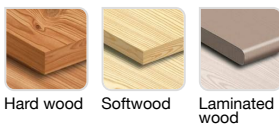

- Especially for hard and soft woods
- Especially for large diameters
- Quick tool changing
- 4 cutting edges
- Carbon steel
- Quick-change shank
- Centring point

Machine

Application

Features

Properties and benefits

- + 4 cutting edges: cut designed with a central fly and 4 cutting edges, for the excellent distribution of force and careful work ➡ Enables the clean and precise cutting of woods. Excellent force distribution.
- + Carbon steel: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ➡ Enables the fast and precise cutting of the tools into soft and hard woods. Superior service life.
- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard ➡ Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + Centring point: cut designed with a central centring point ➡ Enables the simple centring of the drill for precision work.
