

High-performance precise drill bit for all types of wood, thanks to its 3-point fluting and high-clearance fluting.

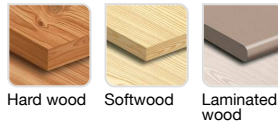

- Especially for hard and soft woods
- Rapid drilling
- Effective Chips removal
- Ultra-precise/controllable drilling

- Carbon steel
- Large chip clearance
- Centring point
- Cylindrical attachment
- SLR laser graduation

Machine

Application

Features

Properties and benefits

- + Carbon steel: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ⤴ Enables the fast and precise cutting of the tools into soft and hard woods. Superior service life.
- + Effective removal of chips: flutes wit effective removal, for the optimal removal of chips. ⤴ Enables fast drilling on account of the simple removal of chips.
- + Centring point: cut designed with a central centring point ⤴ Enables the simple centring of the drill for precision work.
- + Cylindrical shank: cylindrical attachment for all types of machine equipped with a 3-jaw chuck. ⤴ Universal and safe attachment, suitable for all drills equipped with a 3-jaw chuck.
- + SLR laser graduation: laser graduation on the cutting part of the drill bit. ⤴ Laser graduation allows you to control your drilling depth while the bit is rotating.
