

## 1091312 | Concrete drill bits L200 mm - Carbide centring tip - Tri-flat cylindrical shank **TECHNIC** (Blister)

High-performance drill bit for the incredibly fast and precise deep or through-drilling of reinforced concrete and hard materials, thanks to its faceted carbide cutting insert.

- Especially for reinforced concrete and hard materials
- Incredibly fast drilling
- Maximum long life
- Anti-rotation attachment
- Ultra-precise drilling
- Tri-flat shank
- High-strength steel
- Multi-faceted
- Centring point

### Machine

### Application

### Features

### Properties and benefits

- + Tri-flat shank: cylindrical shank with 3x 120° flats, for 3-piece drill chucks. ➡ Enables maximum torque transmission Prevents the rotation of the bit in the chuck. Specially adapted for through-holes.
- + High strength steel body: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ➡ Enables optimal power and torque transmission to the head of the tool.
- + Multi-faceted cutting insert: carbide cutting insert designed with multiple facets, promoting the effective splitting of the materials ➡ Enables the excellent splitting of materials into dust, thus facilitating their extraction.
- + Centring point: carbide cutting insert designed with an integrated centring point at its centre. ➡ Enables the easy centring of the drill, particularly in coarse materials. Excellent drilling precision.
