

High-performance drill bit for the fast and intensive drilling of high-strength steels, thanks to its helical fluting and self-centring sharpening.

- Especially for fine high-strength steel sheets
- Superior long life
- Rapid drilling
- Optimal chip removal
- Anti-rotation attachment
  
- Automatic centring
- Tri-flat shank
- High-speed steel

Ø 4 to 12 - 4 to 20 - 4 to 30 mm Plastic Case

**Machine**

**Application**

**Features**

**Properties and benefits**

- + Split-point grinding:reduction of the drill tip. ↻ Enables the simple self-centring of the drill bit on the smoothest of surfaces. Significantly reduces the required axial load.
- + Tri-flat shank: cylindrical shank with 3x 120° flats, for 3-piece drill chucks. ↻ Enables maximum torque transmission Prevents the rotation of the bit in the chuck. Specially adapted for through-holes.
- + High-speed steel: HSS substrate ↻ For general use in steels and cast irons up to 950 N/mm<sup>2</sup>
