

Drill bit for the drilling of steels and plastics, thanks to its self-centring sharpening.

- Especially for sheet metals and plastics
- Economical drill bit
- Precise drilling

- Automatic centring
- Tri-flat shank
- High-speed steel

Ø 4 to 12 - 4 to 20 - 4 to 30 mm Plastic Case

Machine

Application

N1-
Aluminum
alloy

O3-
PLASTICS

P1-
Unrealized
steels

Features

Properties and benefits

- + Split-point grinding:reduction of the drill tip. ⤴ Enables the simple self-centring of the drill bit on the smoothest of surfaces. Significantly reduces the required axial load.
- + Tri-flat shank: cylindrical shank with 3x 120° flats, for 3-piece drill chucks. ⤴ Enables maximum torque transmission Prevents the rotation of the bit in the chuck. Specially adapted for through-holes.
- + High-speed steel: HSS substrate ⤴ For general use in steels and cast irons up to 950 N/mm²
