

1146854 | HSS-E5 metal drill bit (5% cobalt) - Split point -**SLR graduated TECHNIC (Plastic sleeve)**

High-performance drill bit for the drilling of steels, stainless steels, and cast irons. Graduated drill bit for controlling the depth while drilling. Made in France.

- Especially for stainless steel and high-strength steels
- Incredibly fast drilling
- Tough
- Comfort and precision
- Made in France
- Tri-flat shank
- 35° type N flute
- 5% cobalt HSS
- 135° tip
- SLR laser graduation

Machine

Application

K2- Gray Cast iron

austenitic stainless

P1-Unrealized steels

Features

Properties and benefits

- Tri-flat shank: cylindrical shank with 3x 120° flats, for 3-piece drill chucks. Denables maximum torque transmission Prevents the rotation of the bit in the chuck. Specially adapted for through-holes.
- 🛨 35° type N flute: normal flute profile with a 35° helix angle. 🤤 Suitable for strong and difficult materials. Enables finer edge sharpness, for reduced cutting effort.
- + 5% cobalt high-speed steel: HSS substrate enriched with 5% cobalt. Improved heat retention (strength, cutting sharpness) 🤝 For general use in metals up to 1200 N/mm².
- 135° tip: 135° tip angle for the sharpening of the drill bit. 🍮 Suitable for strong and difficult materials. Enables a shorter and stronger cutting edge, thus prolonging the service life.
- SLR laser graduation: laser graduation on the cutting part of the drill bit. 🗢 Laser graduation allows you to control your drilling depth while the bit is rotating.
