

# 1T20482 | CIRCULAR brush - Stainless steel wire - Scouring of stainless steel **TECHNIC (Blister Box)**

For the cleaning, brushing and scouring of surfaces in stainless steel, aluminium, and other non-ferrous metals

- Especially for stainless steel and high-strength steels
- Superior long life
- Quick-change shank
- Stainless steel wire
- Circular shape

## Machine

## Application

## Features

## Properties and benefits

- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard → Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + Stainless steel wire: stainless wire that is highly resistant to high temperatures. → Enables the stripping of all of your surfaces, even in humid locations. Does not rust.
- + Circular shape: circular geometry for use on edges. → Enables simple stripping on narrow surfaces.
