

For all stripping tasks on wooden, painted wood, and copper surfaces

- Cylindrical shank
- Corrugated wire
- Brass-coated steel wire
- Cup shape

**Machine**

**Application**

Wood

**Features**

**Properties and benefits**

- + Cylindrical shank: rectified cylindrical shank, standard, without flats. → Suitable for all types of drill.
- + Corrugated wire: light stripping of your surfaces, thanks to the crimped material. → Enables the gentle brushing of your surfaces with no need to apply pressure.
- + Brass-coated steel wire: very strong brass-coated bristle with good, aggressive brushing → Enables stripping and rust removal from all your surfaces. The coating gives the product a longer lifespan.
- + Cup shape: round geometry for use on flat surfaces. → Enables simple stripping on flat and wide surfaces.
