

# 1T20612 | CONICAL brush - Twisted steel wire - Coarse scouring of the metal **TECHNIC (Blister)**

Aggressive angle brush for intensive use, for all deburring tasks, and for the removal of rust and paints.

- Superior long life
- Adaptable to fit grinders
- Twisted wire
- Steel wire
- Conical brush

## Machine

## Application

Sheet metal

Painted metal

Rust

## Features

## Properties and benefits

- + M14 attachment adaptable to fit grinders: threading specifically for fixing onto grinders. ➡ Universal and secure attachment that can be adapted to suit all grinders Ø115, 125, 230. Select the brush diameters based on your grinder.
- + Twisted wire: material is twisted for more aggressive cleaning ➡ Enables thorough stripping thanks to the strength of the twisted bristles, without any need to apply pressure.
- + Steel wire: bristles that are highly resistant to wear and traction ➡ Enables stripping, rust removal, and the deburring of all your surfaces.
- + Conical shape: cymbal-type geometry for use at an incline of approx. 30°. ➡ Enables simple stripping in interior corners, to eliminate residues.
