

For stripping work, such as the removal of paint, and for varnish sanding.

- Good surface condition
- Especially for hard and soft woods
  
- Quick-change shank
- Corrugated wire
- Steel wire
- Circular shape

#### Machine

#### Application

Wood

#### Features

#### Properties and benefits

- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard → Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + Corrugated wire: light stripping of your surfaces, thanks to the crimped material. → Enables the gentle brushing of your surfaces with no need to apply pressure.
- + Steel wire: bristles that are highly resistant to wear and traction → Enables stripping, rust removal, and the deburring of all your surfaces.
- + Circular shape: circular geometry for use on edges. → Enables simple stripping on narrow surfaces.
