

For all stripping work on wooden, painted wood, and copper surfaces

- Quick-change shank
- Corrugated wire
- Brass-coated steel wire
- Cup shape

Machine

Application

Wood

Features

Properties and benefits

- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard → Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + Corrugated wire: light stripping of your surfaces, thanks to the crimped material. → Enables the gentle brushing of your surfaces with no need to apply pressure.
- + Brass-coated steel wire: very strong brass-coated bristle with good, aggressive brushing → Enables stripping and rust removal from all your surfaces. The coating gives the product a longer lifespan.
- + Cup shape: round geometry for use on flat surfaces. → Enables simple stripping on flat and wide surfaces.
