

Carbide metal, highly resistant to abrasion for longer service life.

- **Maximum long life**
- **Carbide teeth**
- **Perforated blade**
- **Carbide toothing**

Machine

Application

Fibercement

Features

Properties and benefits

- + Oversized tungsten carbide teeth. ➡ For a long service life.
- + Perforated blade. ➡ Enables the optimal evacuation of dust. Guarantees rapid progression with less vibration and without fatigue in case of prolonged use.
- + Carbide teeth: Carbide teeth: carbide-tipped teeth ➡ Enables exceptional performance in fibre glass-reinforced plastic materials, fibrocement panels, Monomur brick, or plaster board.
