

Extendable rotary saw Ø 30 to 80 mm with HM carbide cutting insert for cutting earthenware. For use with a drill mount only.

- Cylindrical shank
- Adjustable diameter

Machine

Features

Properties and benefits

- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. → Enables versatile use on portable electrical tools and CNC machine tools.
- + Adjustable hole saw: the drilling width is adjustable. → Enables the drilling of different diameters with a single tool.
