

Carbon steel tool that adapts to your specific tasks. Ideal for routing pipes, ducts, and consumer unit enclosures.

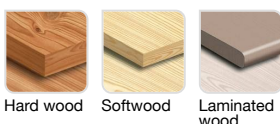

- 6.35 mm hexagonal shank
- Carbon steel toothing
- Adjustable diameter

Machine

Application

Features

Properties and benefits

- + 6.35 mm hexagonal shank / DIN 3126 C 6.3 standard: geometric characteristics comply with dimensional standards. ➡ Enables a perfect hold with bit-holders.
- + Blade made from HCS carbon steel: high-strength carbon steel ideal for cutting into soft wood and non-abrasive carpentry materials. ➡ Enables longer service life thanks to the flexibility of the blade.
- + Adjustable hole saw: the drilling width is adjustable. ➡ Enables the drilling of different diameters with a single tool.
