

Cutter with 2 industrial quality micro-grain carbide cutting edges. Tool made from special abrasion-resistant steel. Made for demanding jobs.

- Superior long life
- Comfort and precision

- For straight groove
- Diamond cut HM blades
- Ø8 mm shank

3 groove cutters: Ø 16 mm H20 mm - Ø 18 mm H20 mm - Ø 20 mm H20 mm

Machine

Application

Plastic

Wood

Features

Properties and benefits

- + For straight groove-cutting: cylindrical cutter shape with cutting edges on the sides and tip. ➡ Enables the routing of a deep, flat groove, with the desired dimensions, with a single pass.
- + Diamond cut HM blades: cut micro-grain tungsten carbide blade for a diamond grinding wheel. ➡ Enables simple and precise work on hard or soft woods, melamine-coated woods, laminated woods, and plastics. Offers a clean cut, and comfortable cutting.
- + Ø8 mm attachment: rectified cylindrical shank with an 8 mm diameter, standard, without flats. ➡ Suitable for routers with an 8 mm bit-holder.
